

A breakthrough in  
Bottle-Less Technology  
The latest in  
Active Microbial Control

## UV/GAC Alkaline Water Dispenser & Purification System

Model  
**OFFICE-RX-FW**

Now the ultimate biological protection available in a Point of Use, water dispenser. This top of the line Hot and Cold Water Dispenser integrates a patented Spiral Ultraviolet Light to prevent the potential for biofilm (slime) buildup in the storage tank after chlorine has been reduced through carbon filtration. Ultraviolet technology also helps reduce any heterotrophic bacteria that may occur in drinking water. A application of BioCote® technology is embedded into the product with microbial reduction in mind, so as to inhibit the growth of microbes. An Alkaline Anti-Oxidant Cartridge filter is added by pH Prescription to increase hydration and energy, for adding essential minerals to the water and to reduce acidity.

This system is ideal for hospitals, doctor offices, children care centers, and other business concerned about the safety and wellness of their patients and employees. This water dispenser safeguard the water against any contamination that might occurred at the tap water source or at the point of use, therefore increasing productivity as well as promoting a positive business image. Let your people know your water is protected by a "Fire wall" today!

BioCote® technology will protect the user accessible external surfaces and selected internal components, lessening the health risks and minimizing the chances of cross-contamination from user to user.

# OFFICE-RX-FW

Tower type Design

## Features and Specifications

Firewall UV Sanitization™

pH Prescription Alkaline Cartridge

Carbon Block - 1 micron

The alkaline filter changes water into a perfect Natural Alkali Calcium Ionized Water. The alkaline filter simply gives back minerals such as ionized calcium, magnesium, sodium, potassium ion, which were taken away while purifying the water. The alkaline filter give the water pH value of 8.00 - 9.50

Leak Detection Optional

Sediment - 5 micron

Dimensions 40.5 H x 13.75 W x 14.5 D

Cold 4.0 liters (approx. 1.1 gallons)

Hot 1.6 liters (approx. 0.4 gallons)

Hot Safety feature

Electrical certification UL Standard 399

Power 120V/60Hz

Purity certifications

NSF/ANSI Standards 42/53/55 Class A, NSF/P231, NSF-61

**A favorite among many office coffee distributors, the OFFICE-RX-FW offers attractive styling that will match other breakroom or office refreshment equipment.**
